

Valentine's Day Granny Square Pillow

By Nicole Daksiewicz

Valentine's Day Granny Square Pillow

"One of my favorite holidays is Valentine's Day - the candies, colors and all around feeling of love. My home starts to feel a bit empty and not as colorful during the time after the holidays when I put all of my Christmas decorations away. Instead of filling my home with hearts for Valentine's Day, I like to take a different approach to decorating by using some of the symbolic colors of the holiday - red and pink.

By using just solids, you can create a project that you can definitely leave out all year long. I chose a selection of Robert Kaufman Kona solids, but feel free to change up your liking or add in some fun patterned fabrics as well." - Janome Maker Nicole Daksiewicz of Modern Handcraft

Materials Needed:

- Assortment of solid fabrics cut into 2 1/2" squares. The color and number of squares used in this pillow are listed below.
- (4) 1 1/2" x 20" strips of fabric for the border. The color used is Kona Lipstick.
- (2) 15" x 20" rectangles of fabric for the envelope backing. The color used is Kona Lipstick.
- 20" x 20" piece of polyester for the batting.
- Coordinating thread
- General sewing notions (rotary blade, ruler, cutting mat, straight pins, iron)
- Janome Horizon Memory Craft 9400QCP

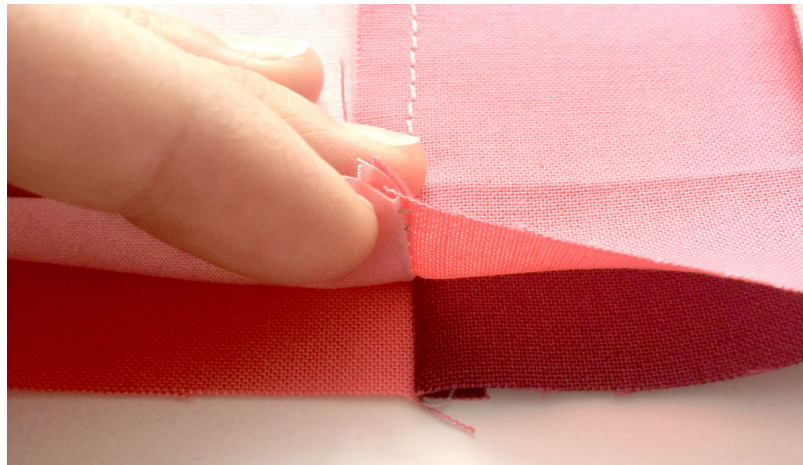

Instructions:

- Cut 2 1/2" x 2 1/2" squares for completing each Granny Square block. Below is the color and number of squares used for this project.

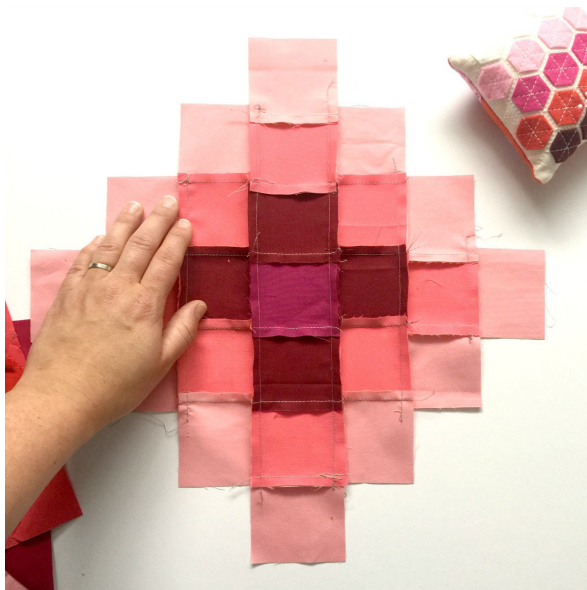

Valentine's Day Granny Square Pillow

- Kona Crimson 1091 (13 squares)
 - Kona Cerise 1066 (9 squares)
 - Kona Sangria 481 (12 squares)
 - Kona Lipstick 1194 (13 squares)
 - Kona Watermelon 1384 (16 squares)
 - Kona Melon 1228 (4 squares)
 - Kona Camellia 190 (8 squares)
 - Kona Med. Pink 1225 (25 squares)
- There is a total of 4 blocks in this pillow, lay out your fabric squares in the granny square layout before sewing.

- Sew each row into a strip using a 1/4" seam allowance.

Valentine's Day Granny Square Pillow

- Press seams in one direction.

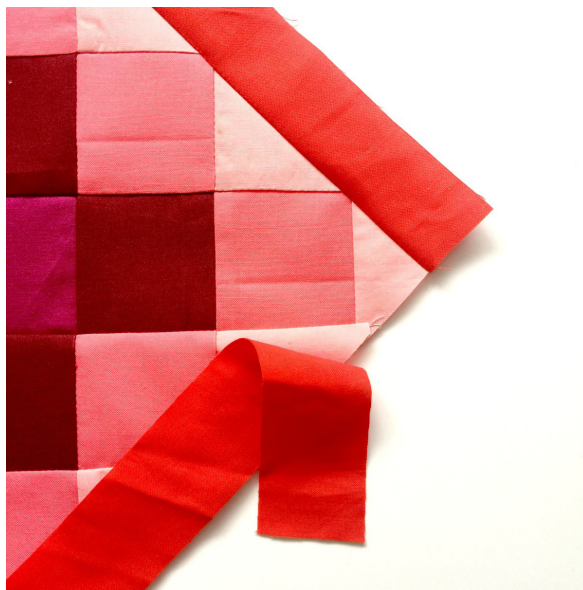

- Place the back into formation, alternating the direction of your seams.

Valentine's Day Granny Square Pillow

- Nest the seams, pin in place and sew the rows together using a 1/4" seam allowance.

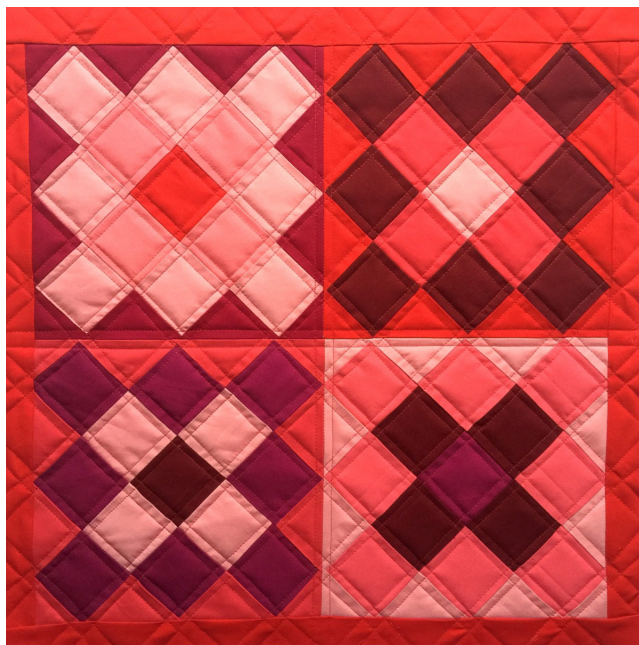

- Press one half of the seams to the right and one half of the seams to the left. Flip over and press again, right side up.

Valentine's Day Granny Square Pillow

- At your cutting mat, trim the edges to create your granny square. A finished size of 9”.

- Lay your finished blocks into a 2” x 2” layout.

Valentine's Day Granny Square Pillow

- Sew together your top two blocks and bottom two blocks. Press the seams open and then sew two halves together.
- Square up the pillow front consisting of 4 blocks, making sure the sides are straight. Sew a 1 1/2" strip to both sides of the pillow front using a 1/4" seam allowance. Press open the seams and trim any extra overhang of fabric. Sew the remaining (2) 1/2" strips of fabric to the remaining two sides, press open the seams and trim.

- Spray baste a piece of 20" x 20" batting to the backside of your pillow front. (Polyester adds a little extra fluff and does not need to be backed in fabric when quilting the pillow front. It also holds up in the washing machine well.)

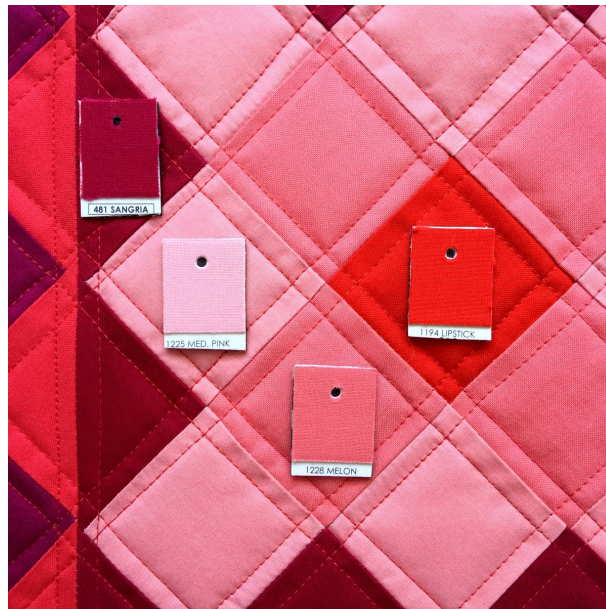

Valentine's Day Granny Square Pillow

- Quilt as desired. Nicole chose to sew along each seam using her walking foot and a 1/4" spacing.

- For your envelope backing, you will take your (2) 15" x 20" rectangles of fabric and press along one long side 1/2", fold and press 1/2" again. Sew along the inside fold.
- Lay your pillow right side up and place your envelope backing right side down, with the folded edges toward the middle. Pin around the perimeter of the pillow to hold in place.

Valentine's Day Granny Square Pillow

- At your machine, stitch around the perimeter using a 1/2" seam allowance, back stitching over the places where the envelope backing meets to reinforce strength. Add a zigzag stitch to the raw edge to finish off the pillow and prevent any loose threads from fraying.
- Flip right side out and press.
- Stuff with the pillow insert. Nicole prefers one that is the size of the pillow cover or a bit smaller to ensure a nice dense feel.
