

Skyline S9 (Blue Version) Update V2.10

IMPORTANT NOTICE

In order to use the **AcuFeed Flex Professional Grade Foot (HP2)** correctly with the Skyline S9 (blue version, not indigo) and avoid malfunctions or damage, please update the Janome Skyline S9 (blue version) with this firmware update - V2.10.

S9 "BLUE" IDENTIFYING COLOR

The program update contains improvements and modifications:

Update adds compatibility with HP needle plate and AcuFeed Flex Professional Grade Foot and resolves minor issues from the previous version.

The V2.10 update can be downloaded through the following links, Please read all articles before you attempt to update the Skyline S9:

- > Please read: [How to format the USB flash drive](#)
- > Please read: [How to unpack a Zip File](#)
- > Please read: [Installation Instructions S9v210](#)
- > Download Update: [Update S9v210](#)

Note:

- Update installs are PC compatible only.
- Please see your authorized Janome dealer if you need help with the update installation.
