

Digitizer MBX V5.0Q – FULL VERSION:

Please click this link to take you to the download page

<https://drive.google.com/file/d/1XEch5B0bEWB4nDBooS4BOF0LfP3X8Nv7/view?usp=sharing>

to download Digitizer MBX V5.0Q. Once you are on the download page, you will need to click

on the download arrow in the upper right corner to start the download.

The download is a large file, so if you see a message like the one below, just click “Download anyway”.

Google Drive can't scan this file for viruses.

JanomeDigitizerMBX - Full V5.0Q.zip (2.1G) is too large for Google to scan for viruses. Would you still like to download this file?

Download anyway

After you have downloaded the file, you will need to unzip it – next, please disable the antivirus and firewall in McAfee, making sure to turn off real-time protection. Once the MBX download has been unzipped, you will need to locate  setup.exe and double-click to install. After the installation has completed, may see a prompt to update to version 5.0R, if you see this at any point, please cancel the update and double-click the V5 icon on your desktop to start the V5 software and complete the registration/activation process, and once completed, you can use your MBX V5 software.

if after the registration/activation is completed you see the prompt to update to version 5.0R, you can allow the update.
