

Janome Magnetic Clamp Attachments

Janome's **Magnetic Clamp Attachments** make using AcuSetter while quilting a breeze! If your project covers the markings on the hoop, these magnetic attachments which are printed with arrows, clamp right over the concealed magnets, making it easier than ever to align your design exactly where you want it in the app.

When using your **Continental M17** make embroidery placement even more seamless with this addition to your embroidery toolbox.

Perfect placement with Janome's AcuSetter App and the ASQ27d Hoop.
