

# AcuSetter

## Perfect Embroidery Placement

This fabulous new tool allows you to use your iPad® and the Horizon Memory Craft 15000's Wi-Fi capabilities for perfect placement of embroidery. It is the next great innovation in Janome embroidery. Once you've downloaded the new AcuSetter App, follow these step by step instructions to use AcuSetter.

### Step 1:

Hoop your fabric/project.  
Open the AcuSetter App and review the on-screen instructions.

### Step 2:

Select your design on the HMC15000. Connect the App to the Horizon Memory Craft 15000. The AcuSetter App will import the chosen design.

Perfect Embroidery Placement

## Step 3:

Photograph the hooped fabric/project with the AcuSetter App. Then move the design exactly where desired on the fabric/project, keeping it within the highlighted area.

## Step 4:

Click next and send the design back to the HMC15000. The design will be stitched out exactly where it was placed in the AcuSetter App.

## Step 5:

After the first stitch out is complete, photograph the hooped fabric/project again to place a second embroidery design.

## Step 6:

Click next and send the design back to the HMC15000. The design will be stitched out exactly where it was placed in the AcuSetter App.
