Digitizing Directions: Create Appliqué Heart

1. Open Artistic Digitizer. From Welcome Screen choose SQ14 hoop.
2. Click Techniques  > Select Embroidery **Edge Cutter Option:** Select Cut.
3. Tools > Clipart Library > Insert Clipart > Heart 2  > Insert.
4. Click in center of hoop > Width 5". Move heart to center of hoop.
5. Click off object to deselect.
6. Hover on Digitize tool > select Outline Shape.
7. Draw curved line across heart making sure to start and stop slightly outside the fill object.

8. Press Enter on keyboard.
9. Click Selection tool > Click the objects in the Sequence bar. You have now selected both the filled object and line.

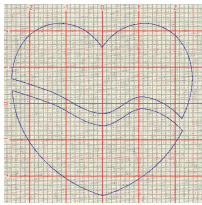

10. Right click on objects in hoop > select Knife from pop up window.
11. Change to Manual Sequence by clicking Auto Sequence tool.  Two new objects appear in the Sequence bar.

12. Click off object to deselect.

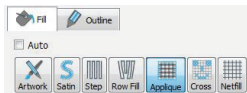

13. Separate the two objects.

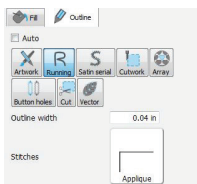

14. Change to Auto Sequence by clicking Manual Sequence tool.

15. Select the heart object > click Fill Tab > select Appliqué.

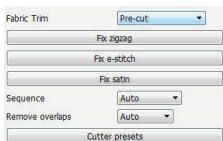

16. Outline Tab > Running > Appliqué.

Edge Cutter Option:

- Select Fabric Trim > Precut

- Cutter Presets > Fabric Backed with Fusible Webbing

17. Save As > Heart. Draw.

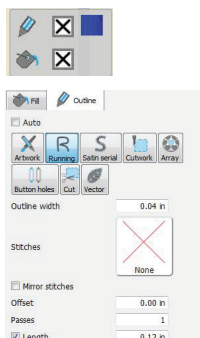

18. Export to USB.

Create Quilting Hearts:

1. Change Hoop to ASQ22.

2. Deselect fill in Used Colors bar.

3. Outline Tab > Running Stitch > Stitch Length .12inch/3mm.

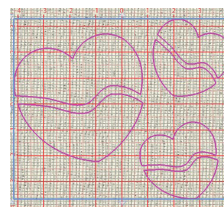

4. Move design to left side of hoop.

5. Select Duplicate > resize Height 3in > move design to right side of hoop.

6. Select small heart > duplicate > move.

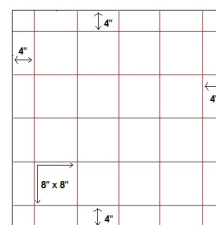

7. Save As > QltMtf.draw.

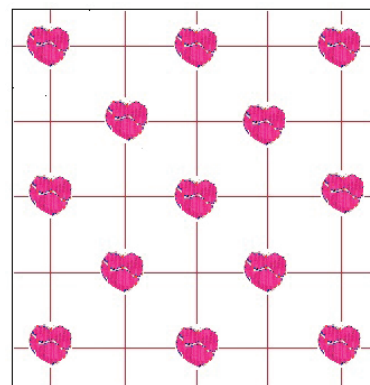

8. Export to USB.

Sewing Directions:

- Cut quilt top 40" x 40".
- Mark center points for embroidery following layout.

3. Appliqué hearts on every other centering point.

Artistic Digitizer Bonus Project - Split Hearts Baby Quilt

4. Center quilt top on 45" x 45" backing and batting. Baste all layers together.
5. Quilt hearts in every block using centering points as guides.

Tip: Use low tension bobbin case for better control of thread tension during quilting.

6. Square up quilt, bind in your preferred method.
