

AcuStitch for Windows

AcuStitch gives you the ability to convert stitches into embroidery patterns and shapes.

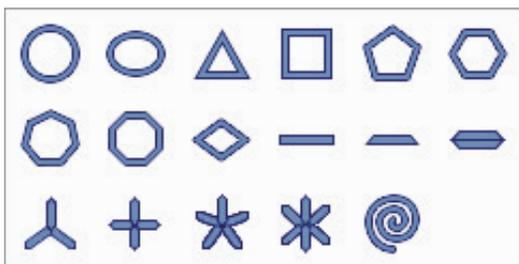

This software has several shapes and configurations to choose from, like polygons, circles, ellipses, as well as straight lines and squares.

**Part Number:
202-419-008**

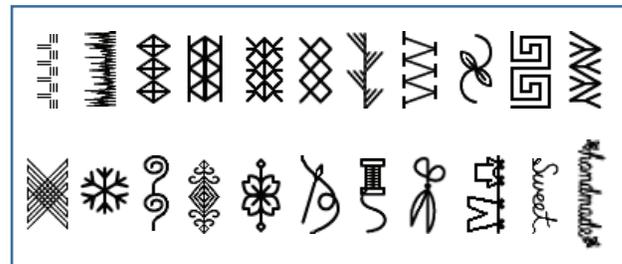

Various kinds of shapes and abundant stitch patterns

Create designs from 17 different shapes and choose from 117 different stitch patterns to utilize in your work.

Shapes:

Samples for Stitch Patterns:

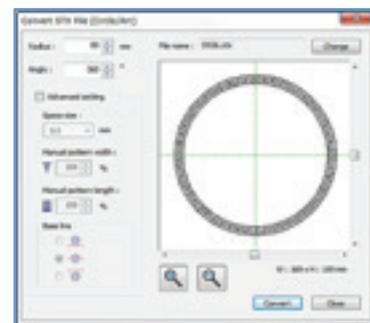

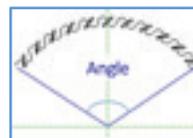

Easy-to-use functionality

Designs can be created automatically with simple settings.

Corner alignment, center alignment, start point and end point alignment can also be done automatically.

By simply changing the angle setting, you can create arcs and variations of your design.

AcuStitch for Windows

Creating original embroidery data

Stitch Composer software is also included on the software installation DVD.

You can create your own original stitch data with Stitch Composer and then create embroidery data for various shapes by using this stitch data with AcuStitch.
