Fusible machine appliqué technique

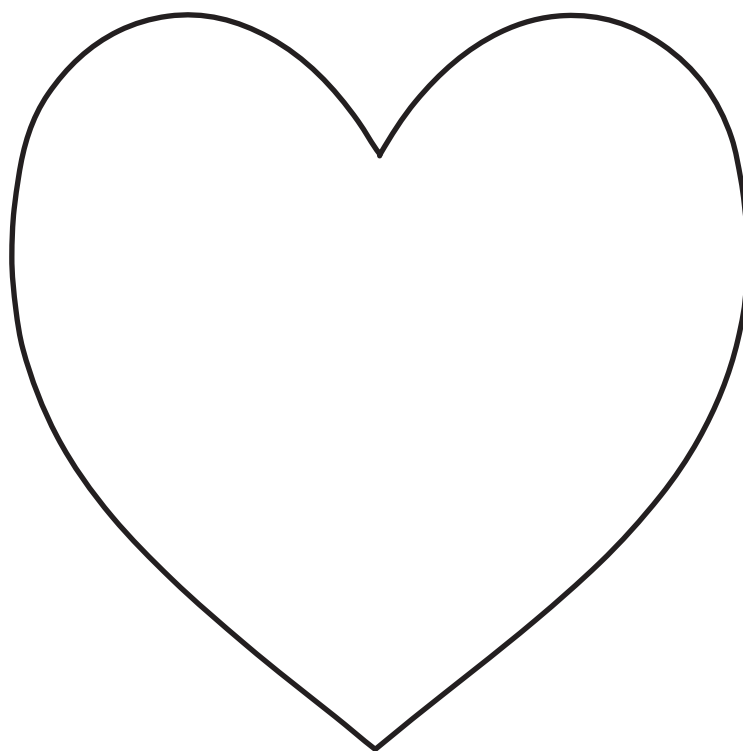

- Trace the appliqué shapes onto the paper side of the fusible web, leaving approximately ½" of space between each motif. Then, rough-cut the shapes, leaving a ¼" margin outside the drawn lines.
- Follow the manufacturer's instructions to fuse the appliqué shapes to the wrong side of the fabrics, as outlined in the cutting instructions.
- Cut out the shapes along the solid drawn line.
- Remove the paper backing from the cut shapes and position them as illustrated on assigned background fabric blocks, noted below. Press in place, following the manufacturer's instructions.
 - 4 heart shapes to 6½" x 6½" squares.
 - 2 small star shapes to 5½" x 5½" squares.
 - 1 large star shape to 6½" x 6½" square.
 - Petals and circles to 8½" x 8½" square.
- Place a piece of tear-away stabilizer on the back of each block. Using the thread color of choice, machine appliqué-stitch around the edges of the shapes to secure them in place.
- Carefully remove the stabilizer from around the outside and inside of your sewn shapes.
- Press the blocks to ensure they lay flat

For machine appliqué

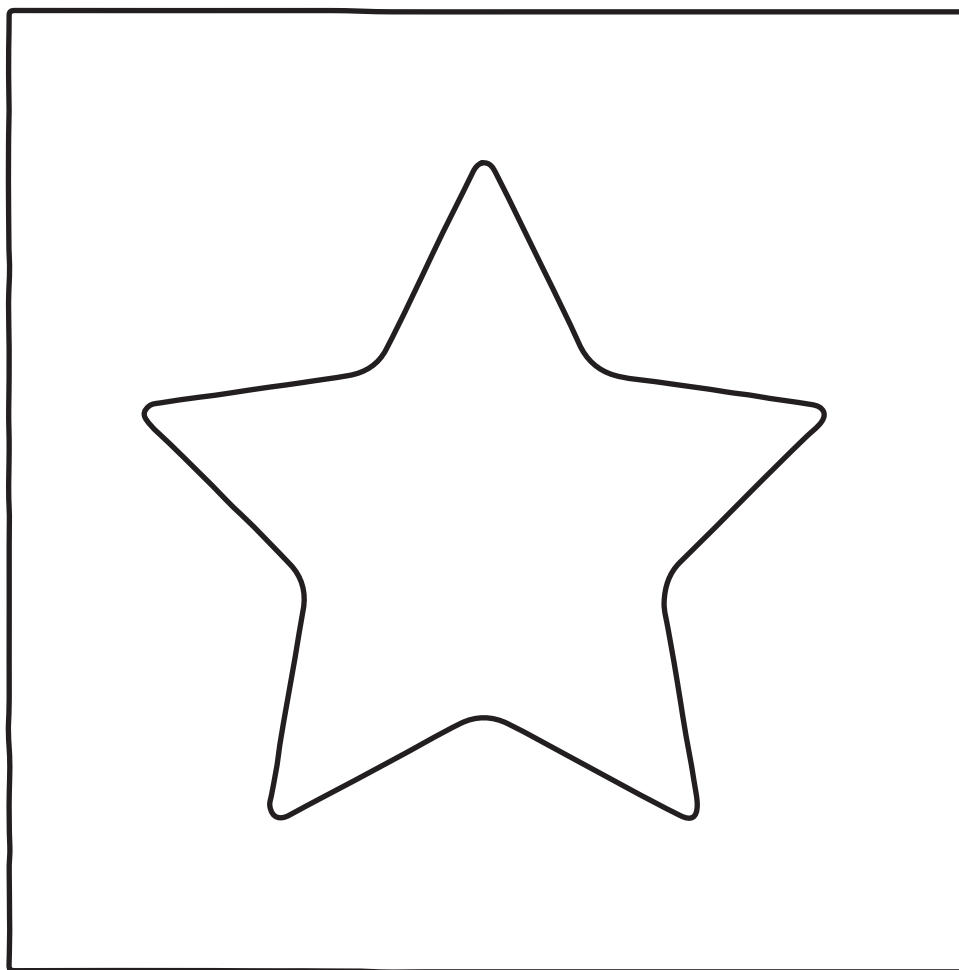

I recommend a single (appliqué) blanket stitch:

- *Stitch width setting of 2.5 or 3.0*
- *Stitch length setting of 2.0*
