

## Artistic Digitizer Jr. – Installation Instructions

Current Artistic Digitizer Jr. owners/users - there is no need to uninstall your software! Make sure your software is not running (exit), then open the software key box (see below) then click Log Out and clear the serial number and activation code fields. Next, enter the full version trial codes that you will receive from the trial email. Click Activate and now start using your full version trial software! Once the trial has ended, repeat the steps above to replace the trial codes with your Jr. codes, now you can use Jr. again (if previously owned).

### WINDOWS USERS

### MAC USERS

### Enter the Full Version Trial Codes

When prompted, enter in the **Serial Number** and **Activation Code** **EXACTLY** the way you see it in your Artistic Digitizer Trial email, then click “**Activate**”.

Your codes **may contain ZEROs** only, but not the letter “O”.  
**DO NOT** use spaces prior to entering the codes.  
**DO USE** dashes as you see them in your codes.

If you receive “**invalid code**” or “**Parameters incorrect**”, this means you have entered in your code incorrectly, please try again.
